Recommendation regarding the teaching of Debby Germann-Yang

I have been taking private Mandarin lessons regularly at intermediate level with Debby for almost a year now. I am very enthusiastic about Debby's teaching and am enjoying it a lot. Debby chose the books that correspond to my level carefully and prepared each of her lessons in advance in the detail. The way she teaches, illustrating her points and using many examples, makes it easier to learn. You can tell that she has an education in teaching and that she has experience in this profession as she masters the subtleties of the vocabulary, writing and grammar of the Chinese language. Even more importantly, she is able to explain these things to her students.

Mandarin is not an easy language to teach to Western students as its structure and writing are so different from our languages. But Debby is an intelligent and motivating teacher who will make it fun for you to learn it. I warmly recommend Debby as a Mandarin teacher.
