

Hi Maire Laoshi,

Here is the feedback that I promised!

I started attending Sprachschule Yang to supplement a course I was taking at school, the course is online and it was very difficult to understand by myself. Ms. Maire helps me and another student to understand the course content, and also supplies us with her own teaching resources which make helps us even further. Class always feels very open and friendly, and Ms. Maire always offers us tea in our class. I am doing very well in my online class, especially compared to students who are getting tutored, I got full marks on my last test, which would not have been at all possible without Ms. Maire's tutelage. She is flexible in the course material and lesson hours, and will even agree to meet me on Skype if I ever need extra help. I would recommend this school to anyone hoping to learn Mandarin!
