

For the past month I have been taking private mandarin classes with Yulong. Overall, the experience was very positive. My goal was to prepare for the HSK 3 examination. Yulong was very fast in grasping what my weaknesses were and making a study plan on how to address them. He was always well prepared and friendly, which made the demanding lessons quite enjoyable. What was also positive was his excellent command of the English language, which allowed him to give accurate English examples of how to use certain vocabulary. On the whole I can recommend Yulong as a teacher for everybody who is willing to make fast progress in mandarin.
